Activities/Leadership: Founding member of AI Foundry @ BYU; Adam Smith Society President (BYU chapter)

BRIGHAM YOUNG UNIVERSITY Provo, UT Aug 2017 – Dec 2021
BA in Humanities (American Studies), December 2021; Minors: Global Business and Scandinavian Studies; Danish Fluency Certificate

EXPERIENCE

BRECKENRIDGE PHARMACEUTICAL Provo, UT Aug 2026 – Present
Generic pharmaceutical manufacturer | Portfolio Strategy Intern

- Building a valuation model scoring product opportunities on risk-adjusted NPV, payback, and required investment.
- Developing a five-year growth plan with revenue and margin projections guiding licensing and acquisition decisions.
- Stress-testing investment thresholds through sensitivity analysis, presenting recommendations to the C-suite.

AI FOUNDRY @ BYU Provo, UT May 2026 – Present
Student-run AI product studio
Founding Member, Director of Product

- Working on the flagship AI Foundry project for a major pharmaceutical client, delivering an operations audit and scoping the product hypothesis behind its generic go-to-market decisions.
- Established and designed the UX/UI and system architecture for the studio's AI operating tools, setting the precedent for current and future studio processes.

REDO Draper, UT May 2026 – Aug 2026
Post-purchase and returns software for e-commerce brands
Partnerships Management Internship

- Built the 3PL channel's pipeline from 0 to 43 C-suite and VP meetings in nine weeks (88% accepted, 77% held) across prospects representing $2B+ in collective annual revenue, proving the channel as a legitimate growth case.
- Wrote the PRDs behind the pipeline tracker and CRM dashboard that became the team's operating rhythm, prompting leadership to approve a seasoned partnerships hire; trained my manager and VP before handoff.
- Redesigned a rejected partner offer into a new offering that opened margin with zero added labor for 3PLs already shipping customer product, delivering more advantageous unit economics.

AWARDCO Lindon, UT Nov 2022 – Jul 2025
Employee recognition and rewards platform
Account Executive (Jan 2024 – Jul 2025)

- Cut the sales cycle by roughly 55% through a one-call-close talk track adapted from the enterprise motion down market, established team-wide.
- Established lower pricing minimums ($5K to $4K, pushing toward $3K) to strengthen the value prop at a price point competitors could not match.
- Helped write the SMB playbook and positioning for the new ICP, adopted by 21 account executives and their SDRs.
- Ranked top 10% in average quota attainment across the SMB team.

Assistant Account Executive (Nov 2022 – Jan 2024)

- Generated $1.5M+ qualified pipeline and $871K closed (#1 of 7 in sourced closed-won, #2 in gross pipeline) by building business cases from ESG reports, 10-K filings, and executive announcements.
- Gathered the customer and technical requirements that defined Kimberly-Clark's custom integration build, converting six months of outbound into a culture-specific program still among Awardco's largest enterprise accounts.
- Translated client outcomes into product tickets for a standing PM-engineering group and sustained technical discovery across 12–18 month sales cycles.

FIDDLE Provo, UT Jan 2022 – Oct 2022
Early-stage operations software startup
Founding Account Executive

- Ran 150+ customer discovery calls and designed the contact-and-company tracker behind them, turning value-proposition response into a documented, repeatable workflow.
- Surfaced recurring ERP-integration pain from SMB CPG prospects directly to the founder-CTO, shifting the roadmap toward a broader API integrations library on that signal.
- Rewrote go-to-market scripts and customer-facing copy as the product changed, resulting in a 9% lift in demo-to-opportunity conversion.

ADDITIONAL

- Church Service: Volunteer Representative, The Church of Jesus Christ of Latter-day Saints, Copenhagen, Denmark (2015 – 2017) – led volunteer teams across five Danish cities, coordinating community programs and training other volunteer missionaries in the Danish language.
- Skills: AI prototyping | AI agent orchestration | Prompt engineering | Go-to-market strategy | SQL (working familiarity) | TypeScript/Python | Salesforce | Jira | Supabase | Vercel | Next.js
- Projects: Megamind (file architecture for a personal AI operating system) | Thrift Scout (automated deal monitor) | SwoleQuest (in build) | Walnut (local speech-to-text tool)
- Personal: Mountaineering | Powerlifting | Eagle Scout
